To ELARABY Group

RE: Electrical Engineer

Dear Recruiter,

I am applying for the Electrical Engineer position advertised in the Elaraby Group and I am confident that my qualifications and experience are suitable for this role.

I recently graduated with a Bachelor of Engineering degree in Electrical Engineering and as my most recent job, I held the position of an Electrical Site Engineer. During my time in this position, I gained meaningful experience in electrical engineering processes and gained essential skills such as Safety Awareness, Electrical Code Identification, Planning and Electrical Design and System Integration. I can confidently state I possess all the necessary knowledge to meet the requirements of the advertised role. In addition to knowledge, I possess the strengths of Critical Thinking, Motivation and Planning. Specifically, as the Electrical Engineer, I will use my strong critical thinking ability to problem-solve electrical issues, evaluate alternative solutions, and make well-balanced judgments about the most effective solutions. I am highly motivated, set goal-oriented objectives, and will always be willing to take initiative and go the extra mile to ensure that projects are completed to an exceptional standard. My strong planning ability will ensure I use my resources efficiently and remain on-schedule with current and future projects.

Thank you for your time and consideration. I look forward to hearing from you and discussing my suitability for this role further.

Sincerely,

Mohamed Nader
